1989

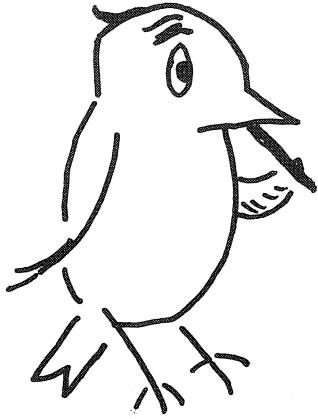

While we are delighted that our field trips are popular, there were some problems in 1988. Many trips were over subscribed, resulting in disappointment for participants who were unable to see all the birds. There were unwieldy numbers of cars on narrow roads and people became lost. To ensure that everyone enjoys the trips, numbers may be restricted in some cases. From now on, members are asked to pre-register for all trips. Leader's telephone numbers are included in the schedule.--DAC

- Saturday Feb. 25 SEWER STROLL II--Leader: Bill Caudle (465-3977). This trip will begin at Herring Cove from where we will work our way into the city, then around Bedford Basin and several stops in Dartmouth before ending at Hartlen's Point.
